

Regina Servín

Software Developer | Backend & Web | STEM Technical Leadership

Mexico City · r.servin19@hotmail.com · +52 55 6487 6703 · rex-portafolio.vercel.app · github.com/Regirex21 · linkedin.com/in/regina-servin

SUMMARY

Software Development Engineering student (Tecnilenio) with hands-on experience shipping production software: the website and internal tools at ITESA, and Nylus, a multi-tenant SaaS platform built with NestJS and PostgreSQL. Founder and Head Coach of ARIA STEAMex (FRC 11040), the first all-female community FIRST Robotics Competition team in Mexico, and national coordinator for 17 FIRST Tech Challenge teams. I combine backend and frontend development with project management, technical documentation and mentoring.

EDUCATION & CERTIFICATIONS

B.Eng. in Software Development | Universidad Tecmilenio, Ferrería Campus

2025 – Present

- Program class president, elected for the second consecutive year.

Certifications: Oracle Academy: Database Foundations (Sep 2026) · Oracle Academy: Java Fundamentals (Feb 2026) · Red Hat System Administration I, RH124 (Feb 2026) · AWS Academy Graduate – Cloud Foundations (Sep 2025) · Cisco Networking Academy: Python Essentials 1 (Sep 2025)

TECHNICAL SKILLS

Programming languages: Java, TypeScript, JavaScript, Python, SQL

Backend & data: NestJS, Node.js, Express, REST APIs, JWT, OAuth 2.0 (Google), multi-tenant architecture, RBAC, PostgreSQL, Prisma ORM

Frontend: Astro, Tailwind CSS, HTML, CSS, responsive design

DevOps & tools: Git, GitHub, Docker, Linux, Vercel, Railway, Turborepo, pnpm, Postman, IntelliJ IDEA, Android Studio

Robotics: WPILib, FTC SDK, PathPlanner, Choreo, Limelight & AprilTags, REV Robotics (Spark MAX, CAN bus)

Languages (spoken): Spanish (native), English B2+ (advanced)

SOFTWARE DEVELOPMENT EXPERIENCE

Software Developer & Digital Operations | ITESA Infraestructura S.A. de C.V., Mexico City

2025 – Present

- Develop and maintain the corporate website, improving responsive design and performance.
- Built internal tools for inventory, orders and quotes, and automated operational processes with Python.

Founder & Backend Developer | Nylus, multi-tenant SaaS platform

In development

- Designing and building a platform to manage organizations, teams and projects for STEM and FIRST Robotics communities: NestJS, TypeScript, PostgreSQL, Prisma and Docker in a Turborepo/pnpm monorepo.
- Implemented JWT and Google OAuth authentication, organizations, memberships, invitations and access control with 5 roles per organization and 24 granular permissions.

TECHNICAL LEADERSHIP & STEM EDUCATION

Founder & Head Coach | ARIA STEAMex, FRC Team 11040

2025 – Present

- Founded and lead the first all-female community FIRST Robotics Competition team in Mexico.
- In its debut it was the **only team with 4 autonomous routines**; 4th in total tower points and 4th in fewest penalties (0 minor fouls).
- Lead strategy, recruiting, programming and sponsorships; designed the team's internal processes, documentation and official website (aria-steamex.com, Astro + Tailwind).

National FTC Coordinator | Project STEAMex

2026 – Present

- Coordinate **17 FIRST Tech Challenge teams** across several states and schools, and drive the launch of new teams.
- Design the national online training program for rookie teams (programming, electronics, awards and portfolio).

Coach | ACRIS, FIRST Tech Challenge

2025 – Present

- Mentor programming, season planning and team organization. Across ARIA and ACRIS, **50+ students mentored**.
- Programming mentor for Desert Robotics (FRC 9060) and instructor of my own from-scratch Java courses (since 2024) for groups of ~10 students.

PROJECTS

FIRSTHub | firsthub.dev

2026 – Present

- Founded a Spanish-language community platform with technical docs, guides and a blog for FRC and FTC teams (Astro, MDX, Vercel).
- Wrote manuals on WPILib, RoboRIO, PathPlanner, Choreo and Limelight used as reference by coaches and students.

COMMUNICATION & COMMUNITY

Event Coverage Team | SoyFIRST

2026 – Present

- Cover FIRST Mexico competitions; some posts have reached **20,000 views** and 600 likes.
- Plan and publish weekly content for three accounts: ARIA STEAMex, ACRIS and FIRSTHub.
